About

Human Computing LLC is a veteran-owned and woman-led small business delivering adaptive, mission-aligned consulting and technical services to federal and state agencies. Though newly established in government contracting, our team is composed of senior professionals with decades of experience in federal IT, cybersecurity, workforce development, and strategic program support across civilian and defense agencies.

Our team includes cybersecurity strategists, senior program managers, training and workforce operations consultants, proposal capture leaders and cleared professionals who have successfully led complex projects for agencies such as CMS, DIA, NGA, DoD, and the U.S. Army.

Core Capabilities

o Program & Project Management (PMO Operations)
o Cybersecurity Architecture & Compliance
o IT Modernization & Systems Engineering
o Cloud Migration & Data Governance
o Strategic Workforce Planning & Talent
o Proposal Support & Capture Leadership
o Organizational Process Optimization
o Performance Reporting & Contractual Compliance

Differentiators

o <u>Veteran-Owned and Woman-Led</u>: Diverse leadership with deep federal contracting experience
o <u>TSI/SCI-Cleared Talent</u>: Access to highly cleared professionals across cybersecurity, engineering, and operations.
o <u>Real-World Results</u>: Supported large-scale cloud migrations, federal IT modernization, and proposal wins across multiple agencies.
o <u>Agile and Scalable</u>: Capable of quickly assembling expert teams for mission-critical delivery.

Socio-economic Business Designations

o SBA Veteran Owned Small Business (VOSB)
o SBA Woman Owned Small Business (WOSB)
o Maryland – Small Business Reserve (SBR)
o Maryland – Veteran Small Business Enterprise (VSBE)

Team Experience Highlights

o Led a FedRAMP-compliant LMS migration for a major federal healthcare agency.
o Delivered a secure data migration and operational transformation for federal contact centers.
o Oversaw $500M+ in healthcare operations contracts, leading cross-functional federal teams.
o Supported capture and proposal submissions for SITE III, DRAID, GEO-SPI, NAVSEA, and more.
o Delivered workforce training initiatives and organizational assessment programs for large-scale federal institutions.
o Conducted cyber threat analysis, IDS monitoring, and ISSO/ISSM duties in classified environments.
